## TELEGRAPHIC BREVITIES.

—Bar silver 102½.  
—A daughter was born to Secretary and Mrs. Whitney yesterday morning. Mother and child are doing finely.  
—The funeral of the late Mrs. Daniel Vorhees took place yesterday. The remains were taken to Terre Haute, Ind.  
—It is prophesied that when Ireland gets home rule Parnell will be the leader on the side of the landlords and the Government.  
—The German army possesses a new explosive called robwrite, which is reported to be stronger than melonite. The method of manufacture is a secret, and it is exploded by intense heat.  
—The Spanish Government is willing to grant amnesty to Zorilla and other political exiles, providing their friends can induce them to return to Spain. It is believed Zorilla will agree to accept the Government offer.  
—A cyclone, accompanied by a terrific rain, nearly destroyed Brisbane, the Capital City of Queensland. Twenty inches of water fell in a short time, and it is feared many people have been drowned.

## A Bad Spell, Indeed.

There was a little social gathering at the Yerger mansion last night. Half a dozen of the most intimate friends of the family were represented. At the supper table Colonel Yerger spoke up and said:—  
"I had a dispute with madame here, and I want you all to settle it."  
"What is it?" asked several.  
"How do you spell candle?"  
Hostetter McGinnis said "k-a-n-d-l-e." Gilhooly, "k-a-n-d-l-e." young Kosciuszko Murphy said "k-a-n-d-o-l," but none of them spelled it right.  
"There!" exclaimed Mrs. Yerger, "I told the Colonel to look for it under the 'k's,' and he said I was only betraying my ignorance."

## A Watch from the Battlefield.

After the battle of Stone River a Union soldier took from the body of a Confederate officer a fine large silver hunting-cased watch bearing the inscription:—  
"To M. S. Smith, Company 'G,' Fourth Mississippi Infantry, C. S. A."  
The watch passed through two or three hands, and was finally traded to a member of a Michigan regiment for a pint of whisky. He brought it home with him, and two or three years ago was killed at one of the railroad crossings. He was the debtor of P. A. Bell, at 1023 Grand River Avenue, to a considerable amount, and the watch came into the latter gentleman's possession at a certain valuation. He is still possessed of it, but thinking the relic might have great value in the eyes of the dead man's friends, he is willing to surrender it to them when properly identified. M. S. Smith was doubtless the first captain of the company, and the watch was presented him either by his town's people or the company.

## Skinning Copperheads.

Several years ago when General Logan was making a Republican speech in New York State, some one in his audience interrupted him with—  
"Logan didn't you used to be a Democrat down in Illinois?"  
"Yes, sir," promptly answered the speaker.  
"Didn't you used to do the dirty work of the Democrat party there?"  
"Yes, sir," again laconically answered General Logan.  
"You're a Republican now?"  
"Yes, sir."  
"Ain't you doing the dirty work for the Republicans now?"  
"Yes, sir," and then pointing his index finger to the man who had thus interrupted, the General continued: "I'm skinning copperheads, and that is the dirtiest work I ever did."  
It is hardly necessary to add that the speaker was not interrupted again.

## A Sudden Transition.

A servant girl in Cincinnati has fallen heir to \$250,000, and the family where she was last employed have invited her to occupy the spare bedroom and to assist in the reception of company.

## Notice!

Manning & Jaques have been appointed plumbers for the Reno Water Co. All other persons are warned against tampering with the mains or making connections thereto. Those having plumbing to do, or any other work, are requested to call on the above firm to any who may require such services. A. A. EVANS, Supt. Reno Water Co.

## Notice.

## MISCELLANEOUS.

There is no remedy which can rival Hamburg Figs for the cure of habitual constipation, indigestion and sick-headache. Their action is as prompt and efficient as their taste is pleasant.

## DR. FLINT'S HEART REMEDY.

When the Heart, Kidneys and Circulation are in a healthy condition all other ailments are mere "side issues" which readily yield to treatment. Dr. Flint's Heart Remedy exerts a specific and direct action on these organs. Descriptive treatise accompanies each bottle, or mailed free. It will repay a perusal and prove instructive and interesting.

These Remedies are for sale by all Druggists. J. J. MACK & CO., Props., SAN FRANCISCO, CAL.

## An Opportunity to Secure a Home at Reno!

## 200 LOTS FOR SALE

The manager of the Lake estate, in order to enhance the value of the property of the estate, as well as assist in

## Building Up the Town of Reno

Has determined to offer two hundred fine building lots for sale, some of which are situated in the central part of town, and are very desirable for business purposes. The proposed site for homes is immediately south of the Truckee river, and its elevation affords a magnificent view of the mountains in the distance, and the valley and town near at hand. A more perfect place for an elegant home could not be selected. The soil is good and an abundant supply of water will be sold with each lot. The health of the locality cannot be questioned, as its elevation assures a perfect system of sewerage. Gas mains will be laid through the streets free of cost, for the benefit of those desiring to use them. It is also intended by the owners to lay out a park on the south side of the Truckee river, covering 20 acres, in which the public may enjoy the pleasure of driving, fishing and boating. The educational advantages of Reno are well known, and the business prospects of the town are assured beyond a doubt. Purchasers of these lots may feel confident that the best of terms will be offered, and they will be fairly dealt with. For further particulars, address

WM. THOMPSON,  
Reno, Nevada.

### TOWN BUILDING.

We have no sincerer wish than to see Reno grow in size and importance and her people increase in numbers and in wealth. She, herself, is the only power that can prevent this happy consummation. By fostering factions and encouraging jealous rivalries she can keep her people poor and prevent others from coming in, or by working harmoniously for her higher interests, she can build them up a little at a time and soon be out of the woods. It is not the dog in the manger spirit that should be encouraged. It is not the disposition that says "Ben Brown beat me once and dash him I can get even with him. I am just as smart as he is and I'll show him so." The people of the town can "get even" with each other, and in doing so can keep themselves and everyone else poor. There is never a one-sided struggle; each side hurts the other when they undertake it, but is it wise? Of course the bank could hurt the flour mill, or the soap factory could hurt the gas company, or the water company could hurt the GAZETTE, and each of them could fight back. Anyone can hurt whomever he gets after, more or less, but it is much better to take the opposite course. Some people imagine that because they have a dislike or have had a personal difficulty with a man, that they should cut him down in everything he undertakes. This is a false and narrow policy. It is traitorous to the public interest and the man who does it is usually cutting off his own nose.

### NOT NECESSARY.

Every once in a while some of the small weeklies or still smaller dailies in the neighborhood, seeing the GAZETTE happy and prosperous, feel themselves called upon to warn the people of this county or this State against us. The fun of it is, that they really believe that they are making a point in a respectable and sensible community like this. Writers with more sense would know that the people do not have to go to such sources for information about a subject so well known and thoroughly established as the GAZETTE, and that instead of injuring it in the least, they are simply advertising their own jealousy. We have never felt called upon to try to prove that our business rivals were public enemies, to expose their faults or copy unfavorable opinions of them, but have devoted our energies to giving the news, and, in consequence, the paper has grown constantly in the confidence and affections of its readers.

### EDITORIAL NOTES

The London *Daily News* professes to know that there is extreme danger of war. It says the Government is alarmed on account of its having heard that Germany is likely within a few days, to ask France to explain the meaning of French military movements on the frontier.

We are being placed under continued obligations to Senator Fair for Congressional documents.

### A Successful Train Robbery.

FT. WORTH, Texas, January 24  
At 3 o'clock yesterday morning, as the east-bound Texas Pacific express was pulling out of Gordon, a small station five miles west of here, two masked men jumped on the engine and covered the engineer and fireman with their revolvers. The engineer was forced to pull ahead until the train reached a high trestle two miles east of Gordon, and as soon as the engine and baggage and mail cars had passed over the trestle the train stopped, leaving the passenger coaches on the trestle. At this point the masked men were reinforced by six assistants and the robbers then went through the express car, taking all money and valuables in the safe, the amount being estimated at from \$6,000 to \$15,000, although the Pacific express officials refuse to state the exact amount. The robbers then proceeded to the mail car, where they obtained 28 registered packages. The passengers were not disturbed, and their coaches being on the high trestle, they could not get out to assist the trainmen. There is no clue to the robbers.

#### A Terrible Tale.

DETROIT, Mich., January 24.  
The Michigan Legislature is investigating the infamous dance houses in the lumber regions of the peninsula. The supply of victims is kept up by offering employment to women in Chicago and other cities. One was interviewed by the *Detroit Free Press*. Not until her arrival in the lumber region did she realize the life she was to lead, and then lack of funds prevented her returning. By force, she was compelled to do the bidding of "friends" who kept the hell in which she was confined. Kicks and beatings were frequent. The shanty in which they were penned was surrounded by high palisades and 13 bloodhounds further prevented escape. All attempts to communicate with the outer world were fruitless. Once the attention of the authorities was attracted, and a deputy sheriff called to investigate. He was given \$500 and left. The girl's story has been verified by the Superintendent of the House of Correction after careful investigation. What is published is but a hint of the life led in these dens of infamy, the details being too revolting for publication. Few leave there except to die.

#### Destructive Boiler Explosion.

PITTSBURG, January 24.  
A battery of four steel boilers at Spang, Chalfant & Co.'s steel and iron works at Etna Borough, six miles east of Allegheny City, exploded with terrific force at 5 this morning, completely wrecking the bar mill department and killing one man instantly and two others were mortally injured. The concussion was so great that it shook the houses for miles around and shattered the windows in the vicinity of the mill. The ruin wrought in the mill by the explosion was complete. The building was laid low and the machinery broken and scattered in all directions. The damage will exceed \$30,000. The cause of the explosion is not yet known. There were but very few men at work at the time. The mill was one of the largest in the city, and was the first to use natural gas.

Wm. Corville also, was terribly scalded and died this morning. Twelve persons were more or less injured by the steam or the flying debris.

#### A Miraculous Rescue.

NIAGARA FALLS, January 24.  
A sewer a quarter of a mile in length running under this town, forms a part of the bed of Muddy creek, which during the thaws in winter is swollen into a rushing river of large volume which empties into the Niagara river over the precipice near the whirlpool rapids. This river was running 15 miles an hour last evening, when Bertha Farrel, aged 4 years, who was seated on a hand-sled, slid into it. Her sister Blanche, aged 10, jumped in after her and both were swept into the sewer. A rush was made for the other end of the sewer, and men secured by ropes, jumped into the water and waited for the children to appear. Bertha came first under water, and Blanche followed on top. When taken out both were apparently lifeless, but after much difficulty they were resuscitated. The children were in the water 10 minutes, the most of the time submerged.

#### An Engine Blown up.

CARMI, Ill., January 24.  
An explosion on the west bound Louisville and Nashville passenger train yesterday morning killed the engineer and fireman, injuring several others, and wrecked the entire train. A C.V. & C. brakeman slipped from a freight and was horribly mangled.

#### An Ice Jam Breaks.

TOLEDO, Ohio, January 24.  
An ice-jam in the Maumee gave way about 4 o'clock this morning, and the river is clear down almost to the bay. The water in front of the city has fallen a foot and all present danger is passed.

#### Father McGlynn Defended.

NEW YORK, January 24.  
There was a demonstration in Madison Square garden last night in con-

pliment to Michael Davitt and his wife. Nearly 10,000 people were present. Patrick Ford presided. When Davitt was presented the people made a vast deal of cheering, and when T. V. Powderly was recognized, there was not a little cheering, as also when Henry George was seen among the crowd. Letters of regret were received from Senator Sawyer of Wisconsin, Senator Dawes of Mass., Senator Vance and Senators Manderson of Nebraska, Sewell of New Jersey, Aldrich of Rhode Island, Sabin of Minn., and Congressman Cutcherson of Mich., Johnson of Indiana, Lyman of Iowa and White of Penn. Davitt, at the outset, chose to construe the demonstration, not only as a greeting to him, but a token of encouragement to Erin, and of defiance to her enemies. He then adverted to the Irish question abroad and said the fight on the land question was on once more. He could not picture the inhumanities being carried on by the British crown. For his part he would have regarded as justifiable homicides, any shooting by the people of Glencoe and Glen Bay of the bailiffs who outraged their homes. (wild cheers.) That the Glencoe people let the bailiffs escape alive, was evidence of the law abiding character of the race, and the speaker wanted to and did "confess" that he is in a measure responsible for the passive attitude of Irish at home. Davitt yet believed it unwise to oppose undisciplined force against disciplined power; that would mean sure defeat. He thought the Tory Government meant a war of extermination, and let this policy become known and all the wisdom of the Conservatives leaders could not avert some supreme act of retaliation. But before such a consummation shall have been reached the common sense of Englishmen will have asserted itself.

#### The Indiana Dead-LOCK.

INDIANAPOLIS, January 24.  
The General Assembly met in joint convention at noon and took one ballot which resulted, Turpie 74, Harrison 70 and Allen four. All the members, with two exceptions, were present and voted. Worally, a Democratic representative, is detained at home by sickness and is paired with O'Brien Republican. It is not known how much longer the friends of Allen will continue to cast their votes for him, but it is considered certain that they will do so for several days yet, and the prospect for an election is no better than it was last week.

#### Corral and Stock Burned.

DENVER, January 24.  
The extensive corral of George L. Goulding & Company was partially destroyed by fire yesterday. Twenty-two head of blooded cattle, eleven mules and three thoroughbred horses were burned to death. The fire is supposed to have started by tramps sleeping in the hay room.

#### Secretary Whitney's Baby.

WASHINGTON, January 24.  
Concerning the new girl baby at Secretary Whitney's house, it is stated that it is to be named Francis Cleveland, in pursuance of a promise made to Mrs. Cleveland several weeks ago. Senator Payne of Ohio, the baby's grandfather, drew his check for \$10,000 as a present for the little one.

#### A Steamer Ashore.

SAVANNAH, January 24.  
The Delaware, of the Clyde line, is ashore in the breakers near St. Andrews sound. Tugs have gone to her assistance, but no particulars can be obtained.

### FOREIGN DISPATCHES

#### An Early Campaign Predicted.

VIENNA, January 24.  
It is estimated that the Landsturm will supply a million additional men to the army. A regulation appended to a decree relative to the Landsturm, directs that if the men are summoned before their uniforms are received, they must wear an insignia, consisting of yellow and black arm bands, and bearing the number of the regiment to which they belong. It is further ordered that each man must provide himself with a metal case in which to keep papers by which he may be identified. Those wearing their own clothes shall be allowed ten krenzers daily. These instructions to the Landsturm are regarded as indications of an early campaign and a cause of disquiet.

#### War Indications.

VIENNA, January 24.  
The rules governing the landsturm, which have just been published, show that nothing except blindness, deafness and dumbness will exempt men from service, and that drafts from the landsturm will be used to fill up gaps in the regular army and navy reserves. The new rules have rather surprised the country, such a sweeping, stringent, contingent not having been expected.

Although the Bulgarian situation has improved, the military preparations of the Austro-Hungarian Government continue unabated. In the event of a mobilization, three great armies will be formed, each corps having no less than 210,000 men. The

commanders of these corps have already been designated. It is believed these gigantic preparations have been undertaken from a fear of war with Russia concerning Bulgaria, than with a view to the contingency of a war between France and Germany, which would cause additional eastern complications.

#### A French Victory.

PARIS, January 24.  
A dispatch from Tonquin says that Colonel Brissend has carried the rebel position at Mikae, Thanho, and that 500 Insurgents were killed. The French were pursuing the rebels.

#### A Stock Panic.

LONDON, January 24.  
There has been a semi-panic in the stock market this afternoon, in consequence of the unfavorable aspect of the political situation.

### WESTERN DISPATCHES

Report of the University Regents  
CARSON, January 24.

[Special to the GAZETTE.]  
The report of the University Regent was presented to the Senate to-day. It is a document of nearly 12,000 words, covering the operations of the Board for the last two years. The topics treated are numerous and of great interest. All the constitutional provisions relating to the management of the University and the control of the public lands of Nevada are exhaustively considered. The Normal school scheme is condemned.

The proposition of increasing the number of the Regents is claimed to be unconstitutional; the Governor and State Treasurer are quietly rebuked for official discourtesy. The Board claims to be fully vindicated in the matter of raising the price of lands contiguous to water. Surveyor General Preble is censured for the perfunctory manner in which they claim he executed the order.

A constitutional amendment is suggested, investing the Regents with power to accept gifts and endowments. The appointment of a faculty on partisan grounds is condemned. A mechanical department is favorably recommended, and many other interesting educational themes are ably treated. The Regents show that the entire legislation in regard to the common school funds has been unconstitutional ever since the admission of the State, and that the United States has the right to claim a forfeiture of the \$90,000 acres of the University grant. It is understood here that the report was written and prepared by Regent Col. H. G. Shaw, and it causes wide comment on account of its comprehensiveness. Foley's bill, regulating jurors' fees, giving them \$3 per day and 15 cents mileage, was passed.

A Fine Marble Quarry.

HOLBROOK, January 20. Editor Gazette:—I have just returned from W. E. Lindsey's Mono marble quarry. The ledge is 150 feet in with and 3000 feet in length and from all appearances, the depth is hundreds of feet. The material is fine grain and produces seven different colors. By the side of the ledge on the west is a 12-foot ledge of genuine Mexican onyx. Mr. Lindsey is now on the ground with a force of men erecting a blacksmith shop, stable and boarding house and will soon have a mill in running order with 20 saws. This is no doubt the finest marble quarry in the United States. Mr. Lindsey showed me some pieces that was blasted out seven years ago and they do not show any weather checks. Yours, HENRY HOUSELTON.

What True Merit Will Do.

The unprecedented sale of "Booschee's German Syrup" within a few years, has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of coughs, colds and the severest lung troubles. It acts on an entirely different principle from the usual prescription given by physicians, as it does not dry up a cough and leave the disease still in the system, but on the contrary, removes the cause of the trouble, heals the parts affected and leaves them in a purely healthy condition. A bottle kept in the house for use when the disease makes their appearance, will save doctors' bills and a long spell of serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price, 75 cents, large bottles. nov29/1

A Neat Imitation.

A bouquet of beautiful flowers, made entirely of garden vegetables, which stood on the counter at the Depot hotel last evening, deceived nearly everybody who saw it. The colors were so naturally and tastefully blended, and the roses, plums, geraniums and a half dozen other varieties, were so neatly arranged that almost anyone would be deceived. The work was done by a waiter at the hotel, and was sent to Carson this morning to be placed on Lieutenant Governor Davis' desk.

BECKWITH NEWS.

The New Mill—The Late Storm—Well-Boring.

BECKWITH, January 21.

Editor Gazette:—Four correspondents had an opportunity to visit the Kirby mill a few days ago. The novelty of a band saw for sawing logs and heavy lumber is attracting a good deal of notice, and the mill has numerous delegations of visitors to see its workings. We arrived just as the steam whistle had blown the signal for dinner, and upon near approach we met a crowd of stalwarts, who invited us to fall in for the boarding house. After dinner we made a brief inspection of the mill, finding it full of machinery and apparently perfect in all its appointments for converting logs into lumber. A gang edger takes the lumber from the rigidly taut band-saw (which runs over large rubber-coated pulleys and is over 50 feet long) and edges everything up to eight inches thick. The only difficulty with its workings thus far, has been the inability to get the lumber out of the mill as fast as it can be made. There had been three days steady sawing previous to our visit, and it takes all hands this afternoon to clear away and pile the lumber. The capacity of the mill is not yet fully developed, but it is known to be capable of sawing 25,000 feet in 10 hours. It has been found necessary to keep the saw in very perfect order to prevent running. In evidence of its accuracy, however, in sawing, I was shown a wide board 1/2 of an inch thick, and was told that they were to saw one 1-16 of an inch thick, to be placed on exhibition in San Francisco. The prospects of a dry winter have given a new impetus to well-boring here. I hear that the West Side Company will continue operations all winter, having at the present time some 16 wells engaged. The ground was bare and favorable for plowing up to the 18th instant, since then we have had heavy southwest winds and some snow, having at present about six inches very soft and heavy, and about equal to so much water. The latest social event on the west side was a surprise party at O. M. Elroy's last Wednesday night. There was a large gathering with dancing. E. J. W.

A Genial Restorative.

Hostetter's Stomach Bitters are emphatically a genial restorative. The changes which this great botanic remedy produces in the disordered organism are always agreeably though surely progressive, never abrupt and violent. On this account it is admirably adapted to persons of delicate constitution and weak nerves, to whom the powerful mineral and abundant secretion are results which it imitates those processes which result in the re-establishment of healthy vigor is conspicuously shown in cases where it is taken to overcome that fruitless cause of debility, indigestion, coupled as it usually is, with biliousness and constipation. Thorough digestion, regular evacuation and abundant secretion are results which promptly and invariably attend its systematic use. It is, besides, the best protective against malaria, and a first-rate diuretic.

Thought to be Unconstitutional.

Speaking of the new salary law now in the hands of the Supreme Court, the Carson Appeal says: It is held by some of the ablest lawyers in the State to be unconstitutional. Its provisions were enacted during one of the economy and reform spasms which occasionally affect a legislative body. The people of Nevada do not want to see its public servants compelled to live on next to nothing. If the law holds it will simply result in a cheap class of officials and the result will be liable to cost the taxpayers more in the long run than the very highest salaries. It is false economy to pursue a niggardly course in these matters and the sooner these things are understood the better.

Plenty of Good Advice.

Some years ago John Randolph Tucker went to Gen. Garfield, both being members of the House at the time, to arrange a pair with him on political questions for a few days. "My oldest son is just of age," he explained, "and I want to run down and give him his start in life." "Very well," replied Gen. Garfield, "but don't break yourself. Too much money at the outset spoils a young man. Money!" exclaimed Mr. Tucker, with an assumed expression on his face. "I haven't a red to give him. But if he'll accept it I'll make him rich with good advice."

Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines prescribed. Hamburg Fig. were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists, J. J. Mack & Co., proprietors.

SPELLING SCHOOL.

An Old-Time Custom Revived in Churchill County.

In this State is the last place where one would look for a revival of old-fashioned pastimes, yet in the remote, isolated county of Churchill the time-honored spelling school is becoming quite popular. Professor Smith is the principal proponent of the enterprise.

The services of the said teacher have been luckily secured for District No. 3, and the trustees consider themselves fortunate, as well they may. None of the pupils are far advanced, but there is manifested a commendable zeal and earnestness of acquisition which is much better. Mr. Smith, with other educators, has noticed the lamentable deficiency in spelling so prevalent among our public school pupils. In his practical manner, he has set to work to promote a reform on this point as far as his narrow sphere extends.

The spelling exercises are held each week, Saturday evening. The people, young and old, for quite a distance, take an interest and come. The meetings are not monotonous, but are diversified by other literary recreations. Next to the invulnerable pedagogue himself, the best speller of common words in the county is Miss Minnie Dillard. The County Surveyor, who comes regularly, is a very good speller, and is especially good in pronouncing and defining different words. The District Attorney is one of the most animated participants; he is a good speller. A recent meeting was honored by the presence of the County Treasurer. He did not give an illustration of his orthographical capabilities, on account of having the baby to care for. Miss Sharp, who wields the willow at Ragtown, enlivened the last contest with her presence. Although the spelling school is new to some, and many get spelled down, all consider it time pleasantly and profitably spent. W. R.

Sudden Death.

The Abattoir.

About 20 head of cattle a day are being killed at the abattoir and the meat shipped in quarters to San Francisco. It takes two good men to do the work. There are some little improvements about to be made that will make it easier and quicker. A wheel and pulley are to be put in to haul the animal inside before killing, so they can be bled quicker. Instead of being shot outside they will be pulled inside and knocked down. Mr. Derby has two refrigerator cars and they don't get back as quickly as they would like. They want to ship a car-load of 30 carcasses every other day. The hides are being salted and will be shipped separately.

MOUNT TULE.

A Fine View of Mountains and Valleys.

This peak is about 30 miles north of Reno, between Winnemucca Valley and Pyramid Lake. It is one of the highest points in this part of the State, and from its summit is obtained a view of the surrounding country seldom equaled in extent and rarely surpassed in grandeur. To the west is seen Long Valley and Sierra Valley, and beyond these, the snow-capped Sierras. Many noted peaks, including Lassen, Downieville Buttes, Haskell and Mt. Rose, are easily recognized, while it is not improbable that a good glass would reveal

THE TOWERING HEIGHTS

Of Mt. Shasta. We now turn toward the south, where Truckee Meadows, Steamboat Springs, Spanish Spring Valley and Alkali Lake are plainly seen. Eastward is seen Carson Sink and Mud Lake, while at the very foot of the mountain lies that magnificent sheet of water, Pyramid Lake. Honey Lake Valley and the Lake can be seen almost entirely. A great expanse of desert is seen toward the north. Among other places visible are Warm Spring Valley, Dry Valley, Red Rock, Winnemucca Valley, etc. Mt. Tule

MAY BE ASCENDED

From Pyramid Lake on the east or from Winnemucca Valley on the west, by a few hours' hard climbing. By going through the valley and climbing the mountain from the north side, one has an easy ascent on horseback. One is well rewarded for his pains by the views afforded from the top; those who have made the journey having expressed the opinion that they have never seen anything superior. The great extent and variety of the scenery, including mountain lakes, valleys, deserts, peaks covered with snow, and, in general, the extremely variegated character of the country all around, make an impression on the beholder that he is not likely to forget.

Nevada Theatre To-Night—"Called Back."

The Grismer-Davies Company arrived last night and will appear here to-night in Mr. Grismer's dramatization of Hugh Conway's celebrated novel entitled "Called Back," of which the following is clipped from the Minneapolis Pioneer-Press. Mr. Grismer has succeeded in making a remarkably strong dramatization of Conway's work. It is more satisfactory, as a whole, than most dramatizations of popular novels—those of Dickens' works, for instance. This is probably in part due to the comparative brevity of the work itself and to the continuity of the story as it is told by the author. The dramatist, as a matter of fact, reproduces in its leading details the whole novel. Nothing important is lost, and the adaptation for the stage of the various incidents described is skillful and effective, especially the mysterious psychological reproduction of the murder, on which the story hinges. So much for the drama. The representation was equally satisfactory. Mr. Grismer, in the part of Gilbert Vaughn, the hero of "Called Back," displays evidences of a high order of histrionic ability. His performance was a strong and finished piece of acting, with elements of power which told with the audience. He was ably seconded by the charming Miss Davies, a lady admirably adapted to the part by nature, and a careful effective actress. Her role was really quite a trying one, for she had to carry through two acts, the appearance of a demented woman. Her success in this way was very marked, the representation being not in the least overdrawn, or in any way marred by the bizarre effects. The sale of seats for to-night has been very large, but there still remains many choice ones.

## A Safeguard.

The fatal rapidity with which slight colds and coughs frequently develop into the gravest maladies of the throat and lungs, is a consideration which should impel every prudent person to keep at hand, as a household remedy, a bottle of AYER'S CHERRY PECTORAL.

Nothing else gives such immediate relief and works so sure a cure in all affections of this class. That eminent physician, Prof. F. Sweetser, of the Maine Medical School, Brunswick, Me., says:—

"Medical science has produced no other remedy so good as AYER'S CHERRY PECTORAL. It is invaluable for diseases of the throat and lungs."

The same opinion is expressed by the well-known Dr. L. J. Addison, of Chicago, Ill., who says:—

"I have never found, in thirty-five years of continuous study and practice of medicine, any preparation so great as AYER'S CHERRY PECTORAL, for treatment of diseases of the throat and lungs. It not only breaks up colds and cures severe coughs, but is more effective than anything else in relieving even the most serious bronchial and pulmonary affections."

## AYER'S Cherry Pectoral

Is not a new claimant for popular confidence, but a medicine which is to-day saving the lives of the third generation who have come into being since it was first offered to the public.

There is not a household in which this invaluable remedy has not been introduced where its use has ever been abandoned, and there is not a person who has ever given it a proper trial for any throat or lung disease susceptible of cure, who has not been made well by it.

AYER'S CHERRY PECTORAL has, in numerous instances, cured obstinate cases of chronic Bronchitis, Laryngitis, and even acute Pneumonia, and has saved many patients in the earlier stages of Pulmonary Consumption. It is a medicine that only requires to be taken in small doses, is pleasant to the taste, and is needed in every house where there are children, as there is nothing so good as AYER'S CHERRY PECTORAL for treatment of Croup and Whooping Cough.

These are all plain facts, which can be verified by anybody, and should be remembered by every body.

## "THE IDEAL MAGAZINE"

FOR YOUNG PEOPLE IS WHAT THE papers call St. Nicholas. Do you know about it? Is it, how clean and pure and helpful? If there are any boys or girls in your house will you try a number, or try it for a year and see if it isn't just the element you need in the household? The "London Times" has said, "We have nothing like it on this side." Here are some leading features of

## ST. NICHOLAS

FOR 1888-87.

Stories by Louisa M. Alcott and Frank R. Stockton—several by each author.

A Short Story by Mrs. Burnett, whose charming "Little Lord Fauntleroy" has been a great feature in the past year of St. Nicholas.

War Stories for Boys and Girls. General Bado, chief of staff, biographer and confidential friend of General Grant, and one of the ablest and most popular of living military writers, will contribute a number of papers, describing in clear and vivid style some of the leading battles of the civil war. They will be panoramic descriptions of single contests or short campaigns, presenting a sort of literary picture gallery of the grandest and most heroic test in which the parents of many a boy and girl of to-day took part.

The Serial Stories include "Juan and Juana," an admirably written story of Mexican life, by Frances Courtenay Baylor, author of "On Both Sides," also, a "Jenny's Boarding House," by James Oles, a story of life in a great city.

Short Articles, instructive and entertaining, will abound. Among these are: "How a great Panorama is Made," by Theodore R. Davis, with profuse illustrations; "Winning a Commission (Naval Academy)," and "Recollections of the Naval Academy," by Boring for Oil; and "Among the Gas Works," with a number of striking pictures.

"Child Sketches from George Eliot," by Julia Magruder; "Victor Hugo's Tales to his grandchildren," by the late George Brander Matthews; "Historical Girls," by E. S. Brooks. Also interesting contributions from Nora Perry, Harriet Prescott Spoford, Joaquin Miller, H. H. Boyesen, Washington Gladden, Alice Wellington J. T. Trollope, Lieutenant Fredrick Schwab, Noah Brooks, Grace Denio Litch, J. D. Rose, Arthur Lathrop, Mrs. S. M. B. Platt, Mary Mapes Dodge, and many others, etc., etc.

The subscription price to St. Nicholas is \$3 a year, 25 cents a number. Subscriptions are received by booksellers and new dealers everywhere, or by the publishers at a low price. The illustrations are expensive and of a conspicuously high standard of excellence.

I heard a good story the other day of two ladies who, it is said, once lived in Chicago, and who were social rivals. They were on visiting terms, but devoted much of their time to considering how they could surpass each other in the richness and elaboration of their houses and raiment. In the progress of this pleasing rivalry Mrs. A. gave a grand reception, at which she appeared in a new gown of very fine and wonderful texture, which quite surpassed anything that had ever been made into a dress for a Chicago lady in the whole history of that remarkable town. Everybody saw the incomparable dress and marveled greatly thereat—that is everybody except the unconquerable rival, Mrs. B., who gave a reception at her own house a fortnight later, to which the same people were invited who had attended the reception at Mrs. A's. The astonishment of the latter, on entering Mrs. B's drawing-room, she beheld all the upholstered furniture in the room covered with precisely the same material as that of the dress with which she had startled her friends two weeks before. In the language of the street, Mrs. B. "got away with her" that time at least.

### Miss Bayard's Clever Retort.

Oscar Wilde knew the late Miss Bayard very well. He was a great admirer of her wit and power of repartee and lost no opportunity to meet her during his stay in Washington. One fine day the capital's society people found themselves interested in two events which were to take place in the evening. One was a lecture by the champion of the sunflower and the other was a brilliant reception. Oscar Wilde met Miss Bayard during the afternoon of the evening day and she asked him:—

"Mr. Wilde, will you go to the reception to night?"

"Well," he replied, "if I am not too much fatigued after my lecture."

A short pause followed and then he said:—

"Miss Bayard of course you will be at the reception?"

"Well," came the answer, "if I am not too much fatigued after your lecture."

For "worn-out," "run-down," debilitated school Teachers, milliners, seamstresses, housekeepers, and all over-worked women generally, Dr. Pierce's Favorite Prescription is the best of all restorative tonics.
